

CEMINTEL®

TERRITORY

CEMINTEL + CSR

Cemintel stands for 'Cement Intelligence' and is the CSR brand that is responsible for some of the most progressive and innovative cladding materials in Australia and New Zealand.

With design and innovation as our central drivers, Cemintel is focused on a fresh, intuitive approach to cement-based cladding materials such as fibre cement and cement-bonded fibrous wood particle panels. Our passion is to help architects, designers and builders design right and build better.

As part of CSR, the name behind some of Australia's most trusted building product brands – Gyprock, PGH Bricks, Bradford, Hebel, AFS, Himmel, Martini and Monier, Cemintel acts as a trusted advisor, providing expertise, compliance and transparency when it comes to building with cladding. The CSR technical support team includes engineers, building designers and material scientists, working to support the specification of Cemintel products across Australia and New Zealand.

TERRITORY

Cemintel Territory is a prefinished cladding system that simulates materials such as stone, timber, concrete, metal, and smooth render.

Territory cladding is a 16mm thick cement bonded fibrous wood particle panel that is pressed with surface textures and finished with a high quality paint and UV coating. Panels are 3030mm in length, with an effective cover width of 455mm, and connect seamlessly into each other via a tongue and groove profile.

Territory cladding panels are supported by a proprietary concealed fixing system that enables the panels to be installed on masonry, timber and steel frames, either horizontally or vertically, externally or internally, on both residential and commercial buildings.

WHY TERRITORY?

- CodeMark Certified CM30048
- Tested to AS5113 achieving a reaction-to-fire performance 'EW' (External Wall) classification
- Panels are able to be used whenever a non-combustible material is required by NCC DTS Clause C1.9 (e)(iv)
- Resistant to bushfire attack level 40 (BAL 40) for external walls tested accordance with AS1530.8.1
- Group Number 1 for internal lining in accordance with AS5637.1/ISO9705
- Prefinished and available in a variety of colours and textures
- Minimal ongoing maintenance and long lasting protection against UV damage and colour fade
- Proprietary concealed fixing system provides a ventilated cavity for effective moisture management
- Compatible with other Cemintel prefinished cladding systems including Surround and Barestone (refer to pages 24 & 25)
- Integrates easily into mixed façade systems that use concrete, brick, or AAC such as Hebel
- Complete cladding system including preformed corners and colour-match sealants

THIS IS CEMINTEL TERRITORY

A natural cladding range that derives from the values of simplicity, nature and quality. Territory prefinished cladding simulates materials like stone, timber, concrete, metal and smooth render, in a sophisticated way that enhances building façades and interior spaces.

PREFINISHED CLADDING SYSTEMS

In addition to the Territory range, Cemintel offer a selection of prefinished cladding systems that allow architects, designers and builders to create truly outstanding building façades and interior spaces.

With so much choice the design possibilities are endless. Whether it's a complete façade, an internal or external feature wall, or a ceiling or soffit application, Cemintel prefinished cladding systems add distinctive design features.

Cemintel's prefinished cladding systems (Territory, Surround, Barestone) can be mixed and matched

with each other and easily integrated into mixed facade systems that use concrete, brick, or AAC such as Hebel.

CSR is in a unique position to offer a total facade system solution across its brands with cladding + framing + rigid air barrier from Cemintel, moisture management + thermal and acoustic insulation from Bradford, and framing + internal linings from Gyprock.

SECONDARY PALETTE#

*Limited stock held otherwise minimum order quantities and lead times apply.

CEMINTEL BARESTONE

Barestone panels are manufactured in Australia and provide a natural, raw concrete appearance that blends seamlessly into its environment and easily adapts to modern, contemporary designs. Ash, Lunar and Graphite add colour depth, while maintaining the raw, natural appeal of the much loved Original.

Learn more

CEMINTEL EXPRESSWALL SYSTEM

Cemintel Surround and Barestone prefinished cladding products can be installed horizontally or vertically onto steel or timber stud framing or masonry/concrete using the proven and versatile Commercial ExpressWall® top hat fixing system. Panels are installed as a pressure equalised

ventilated cavity system which is easy to install and delivers a high weather performance system. Learn more about this system in the Surround and Barestone Design and Installation Guides: cemintel.com.au/technical/

Pressure Equalised Ventilated Cavity System

CASE STUDIES

High level fascination, low level maintenance

Building Designer Reece Keil has created a low maintenance home with views of Surfers Paradise using Cemintel Territory for its unique visual qualities and minimal maintenance.

Unique street appeal in Brisbane's south

When building and design company, Into Building, wanted to create a unique look with strong street appeal for their five-house development on Brisbane's south-side, they came to Cemintel for the answer.

Award-winning townhouse

Built on a former quarry site, the Clyde Street project in Thirroul undertaken by Contractors United, represents a masterclass in transformation and modern urban design.

Allure Apartments Dee Why

Combining coastal living with contemporary design features, the Allure Apartments in Sydney's sunny northern beaches are an idyllic retreat from the busy city.

Quality and beauty at the forefront of design

Clients come to Hudson Ridge seeking a high level of detail, aesthetic, and longevity within their build, the use of Cemintel and Hebel materials ensure this is possible, every time.

Holistic healthcare with Territory Savanna

For the growing town of Port Macquarie, the expansion of the local Base Hospital has not only brought world-class services, equipment and skills to the region, the \$17.5 million expanded mental health unit has also delivered a new approach to holistic care through thoughtful design, inside and out.
